ARISE is a pan-African infrastructure and logistics solutions company developing ecosystems designed to make Africa thrive. The journey started in 2010 and within a span of a decade, it has grown to have operations with 11 assets in five countries, valued at 5 billion USD.

The organisation identifies opportunities in commercial and industrial value chains across Africa, and conceives, finances, builds and operates the necessary infrastructure to allow businesses to develop and fulfil their potential. Today the platform comprises three verticals, namely ARISE Ports & Logistics (P&L), ARISE Integrated Industrial Platforms (IIP), and ARISE Infrastructure Services (IS).

ARISE's trusted partnerships with governments and renowned investors enable them to execute large-scale projects that transform local value chains and industrialise countries in an environmentally sustainable way.
